

# SPEAKER PACKET

Daniel G. Pompa, DDS

ADVANCED  
PRACTICE  
SEMINARS  
[www.APS4DDS.com](http://www.APS4DDS.com)

## Are you prepared for a crisis situation that can occur at any time?

From handling a medical emergency to deciding on an alternative treatment plan when cases take an unexpected turn, attendees benefit from courses presented by Daniel G. Pompa, DDS.

An Oral and Maxillofacial Surgeon, Dr. Pompa shares new and proven clinical approaches while expanding problem solving and analytical skills. He delivers high energy, interactive, multimedia presentations. Attendees will gain insight into the decision making process by reviewing multiple case history scenarios as well as a hands-on workshop with his Medical Emergency course.

Dr. Pompa uses this approach across a wide spectrum of topics, based on 30 years of experience as an Oral and Maxillofacial Surgeon. Concepts and methods presented are supported by a thorough review of the most recent evidence-based dental and medical literature.

With guidelines and principles that will broaden your situational awareness, both surgically and medically, participants understanding, confidence and patient outcomes can improve.

**"An outstanding lecture that is brilliantly presented."**

*M. Rothberg, DDS; Long Island, NY*

## Medical Topics

**Actions and Algorithms for Medical Emergencies:  
*How to Save a Life (Including Your Own)***

**The "Top 10 List" for Essential Drugs in the Emergency Drug Kit**

**The Role of the Dental Professional in the Treatment of the Diabetic Patient**

## Surgical Dental Topics

**To Pull or Not to Pull: *Periapical Surgery vs. Implant Replacement***

**The Single Tooth Implant: *The Ultimate Esthetic Challenge***

**Updates on Implantology and Prosthetics:  
*From the Surgeon and General Dentist's Perspective***

**View Demo Video: <http://tinyurl.com/hhrylkc>**

*Advanced Practice Seminars*

# Actions and Algorithms for Medical Emergencies: How to Save a Life (Including Your Own)

A **CRISIS SITUATION** can—and likely will—occur at some time in your practice.

Many potential medical emergencies can be prevented. Gain a comprehensive command of the essential knowledge and skills needed to handle a life threatening medical crisis.

There are more medically compromised patients coming to our offices than ever before. Acquire “up to the minute” actions for dealing with a medical emergency while challenging preconceived or outdated ideas. **Daniel Pompa, DDS** - Oral and Maxillofacial Surgeon, ADA Consultant and Seminar Series Speaker - discusses the prevention, preparation, recognition and management of medical emergencies. Delivered in an interactive, high energy, multi-media presentation frequently described by attendees as “*highly informative,*” “*engaging,*” and “*exceptional.*” A step-by-step *medical* approach using basic physical diagnostic methods is reviewed, giving the attendee a clear understanding of these medical findings.

We will explore the “*Conversational History*” and how it will uncover medical issues not revealed by the standard health history form. Additionally, the participant will learn simple, non-invasive critical tests that can reduce overall risks. We clearly delineate indications for emergency drug use and proper dosages, as well as demonstrate how to assemble and maintain an ideal emergency drug kit. The newest techniques for drug administration will be shown for participants to hone their skills utilizing simulation models and real drugs. Dr. Pompa may incorporate live demonstrations to enhance the learning experience depending on the venue format.

Attendees will receive and review color-coded instructional cards depicting the most common life-threatening situations with algorithms providing an easy to follow action plan for both dentist and team members. We will also review the legal and moral obligations that are presented during a medical crisis.

## Learning Objectives:

- Discover three simple chair-side, non-invasive tests to help avoid an emergency
- Recognize the most frequent life threatening emergencies and know when and why they occur
- Review a systematic approach to treat the most common life-threatening scenarios
- Learn how to develop a plan for the office team when dealing with a crisis event
- Determine when to administer the essential “Top 10” emergency drugs
- Understand legal and moral obligations presented by medical emergencies

## Emergencies Covered Include:

- ✓ Adrenal Insufficiency
- ✓ Anaphylaxis
- ✓ Angina
- ✓ Asthmatic Attack
- ✓ Cardiac Arrest
- ✓ Hyperglycemia
- ✓ Hyperthyroidism
- ✓ Hyperventilation
- ✓ Hypoglycemia & Insulin Shock
- ✓ Hypothyroidism
- ✓ Mild Allergic Reactions
- ✓ Myocardial Infarction
- ✓ Orthostatic Hypotension
- ✓ Seizures and Epilepsy
- ✓ Stroke (CVA)
- ✓ Syncope

## Suggested Formats:

Full or Partial Day; Lecture or  
Lecture & Workshop

## Suggested Attendee:

For All Health Professionals  
and Teams

## Meet BOTH Your CE and CPR Requirements!

This course may be combined as a partial day course when paired with your *state CPR Certification course* for a full day format.

## To Pull or Not to Pull: Periapical Surgery vs. Implant Surgery

What alternative treatment options should be considered when a restorative and/or endodontic failure occurs?

Advancements in delivering periapical surgery have resulted in success rates that can be equivalent to implant replacement when certain guidelines are adhered to. Periapical surgery as an adjunct to endodontic treatment is a proven approach. With the introduction of new surgical techniques and a systematic method to the diagnosis and treatment of compromised teeth, the clinician should be able to more accurately determine the long term prognosis for these treatment options.

Evaluate treatment options with an evidence-based approach when a tooth is ailing or failing. This course will describe the indications and contraindications for performing or referring a patient for apical surgery. With a specific 7 step workup, including a correct history, radiographic and clinical evaluation, the decision to perform an apicoectomy will be weighed against further evaluation, a re-treatment option, or extraction and replacement with an implant (immediate or delayed). As a result, a decision is more accurately made as to whether an implant or a fixed bridge (fixed partial prosthesis), a removable prosthesis (fixed or transitional temporary prosthesis), or other options would be the final treatment plan discussed with the patient.

### Learning Objectives:

- Learn the radiographic technique to use when evaluating a tooth for a fracture
- List the 7 step work-up, consisting of procedures and tests that should be used when performing or referring a patient for an apicoectomy
- Understand the principles of guided tissue regeneration, and know the indications and contraindications for its use
- Recognize how the location of a sinus tract can be a key critical diagnostic indicator for the final prognosis
- Identify the signs to differentiate between an Endo/Perio vs. Perio/Endo lesions and understand the difference as it relates to the final prognosis

**Multiple Lecture Formats:** Full or Partial Day; Evening

**Suggested Attendee:** General Practitioner & Dental Specialists

"Excellent presenter, great world of knowledge and experience. Relevant and interesting."

**Dr. Florence Certo**  
Staten Island, NY

"Dr. Pompa is very energetic and informative and clarified several misconceptions regarding diagnostic and treatment planning. Very worthwhile course to take."

**Dr. Eric Weinberg**  
South Orange, NJ

"I learned so many 'take home' ideas to put to immediate practice."

**Dr. Jerome Gliksberg**  
Succasunna, NJ

"One of the best CE courses taken lately."

**Dr. Jason Seo**  
Wayne, NJ

"Great. Brilliant course."

**Dr. Naim Sylvester**  
Totowa, NJ

**Daniel G. Pompa, DDS**

# The Single Tooth Implant: The Ultimate Esthetic Challenge

The single tooth implant may be one of the most difficult challenges dentists face, with possible unforeseen outcomes.

The past few years have brought a paradigm shift, as guidelines for the surgical and restorative approach have changed dramatically. Fine tune your workup to create a result that is as close to a natural replacement as possible. We will focus on the latest advances incorporating evidence-based data. Participants will review a unique sequential treatment planning approach which can result in successful outcomes.

Emphasis will be given to the use of 3D treatment planning as it relates to the diagnostic workup and the use of computer guided surgery.\* Multiple provisional options and/or interim Hawley prosthesis appliances will be reviewed to attain ideal esthetic results. Long term follow-up will be shown as it relates to these approaches.

## Learning Objectives:

- Explore the use of platform switching and when and where to use it
- Identify the "Top 10" rules for a successful esthetic outcome
- Determine when to use immediate vs. delayed placement of implants
- Understand the principles of CT guided treatment planning
- Describe multiple provisional options for maximizing esthetic results

**Multiple Lecture Formats:** Partial Day, Evening

**Suggested Attendee:** General Practitioner & Dental Specialists

"Everyone enjoyed your presentation and I have received only glowing reviews."

**Jim Apitauer, DDS**  
Clinical Assistant Professor  
New York University

"Dr. Pompa is the ultimate lecturer who keeps you focused on the information, and who simplifies the complexity of the problem so that the answer will always remain with you. He is one of the most intelligent and impressive doctors I know."

**Andrew Gershon, DDS**

"The useful information presented by Dr. Pompa far exceeded, my already high, expectations. I would enthusiastically recommend this program to all my colleagues."

**Daniel Fink, DDS**  
Forest Hills, NY

# Daniel G. Pompa, DDS

## Things don't always go the way we plan.

From handling a medical emergency to deciding on an alternative treatment plan when cases take an unexpected turn, attendees will benefit from Daniel G. Pompa, DDS's courses. With guidelines and principles that broaden your situational awareness and understanding, participants' confidence and patient outcomes can improve.

Sharing new and proven clinical approaches while expanding problem-solving and analytical skills, Dr. Pompa's highly interactive presentations include multi-media and live demonstrations. Additionally, attendees will gain insight into the decision making process by reviewing multiple case history scenarios.

Dr. Pompa uses this approach across a wide spectrum of topics, in an effort to improve patient outcomes. He consistently receives exceptional reviews and repeat engagements. Content is based on 30 years of experience as an Oral and Maxillofacial Surgeon supported by a thorough review of the most recent evidence-based dental and medical literature.

Dr. Pompa co-established The Oral Surgery and Implant Center in Forest Hills, New York in 1985. After graduating from New York University College of Dentistry, Dr. Pompa completed a GPR at Long Island Jewish Hospital, followed by specialty training in Oral and Maxillofacial Surgery at Lincoln Hospital, New York Medical College. He has earned Fellowship status in both the American Association of Oral and Maxillofacial Surgeons and International Congress of Oral Implantologists.

**\*The US Patent # 5,320,529 description with over 350 references that now cite Dr. Pompa's patent, can be viewed here: <http://tinyurl.com/jlgqrce>.**

"It's not often that you get to use 'light hearted' and 'dental office emergencies' in the same sentence, but Dr. Pompa was able to carry it off. Far exceeding the objectives of this course, Dr. Pompa is an outstanding speaker who offered interesting, not-commonly known facts. He is one of the best speakers we've had."

**R.K. Rosenberg, DDS**  
**Northern Virginia Dental Society**

"Yesterday I had a Dental Assistant who went into a severe allergic reaction with her throat closing. I didn't panic and kept cool knowing I had taken your course in Emergencies and was capable of dealing with it. I activated the Emergency Rescue system you taught and it went by the book. Afterwards her Physician mentioned to her that I had saved her life."

**Simon Cherif, DDS**  
**Queens, NY**

### Honors & Achievements

- Seminar Series Speaker and Consultant; American Dental Association
- Speaker for the Colgate Oral Health Network for Professional Education and Development
- Leader in Continuing Dental Education; Dentistry Today

### Membership in Professional Associations

- American Association of Oral and Maxillofacial Surgeons; Fellow
- International Congress of Oral Implantologists; Fellow
- American Dental Association
- New York State Dental Society
- Queens County Dental Society
- Academy of Osseointegration

### Online Courses

- American Dental Association CE Online
- Oral Health Network, Dental CE Courses

### Publications

- Journal of the American Dental Association
- New York State Academy of General Dentistry Journal
- Dentistry Today

### Outreach/In the Community

- Established the "APS Invitational Open Charity Golf Tournaments" to Benefit U.S. Veterans; American Legion (*multiple years*)
- Freedom Tour (New York City Area); Organizer
- New York City Walking and Concert Tour; Organizer
- New York Classic Film Club; Founder and Host

**“Your presentation was the best of many medical emergencies courses that I have attended in my over 45 years in the dental profession.”**

*Robert N. Smyth, DDS, MS, MPA  
Washington, DC*

## Testimonials

"This succinct course in how to prevent, recognize, and manage office medical emergencies was relevant, excellent, and extremely well presented by Dr. Pompa. I very highly recommend it to all practitioners. Bravo!"

*Irvin Kotkin, MD; Hyde Park, NY*

"We really enjoyed your presentation...and the movie songs/trivia! Your program was excellent and I can't imagine not having my team there with me. It doesn't do much good in a real life situation if I'm the only one who knows what to do. Especially if I'm the one having the emergency!"

*Cathy Taylor, DMD; Gainesville, FL*

"Your lecture and delivery was so engaging. By any measure, you are a very effective speaker and educator. Your presentation drew the audience in and held their attention throughout the day. There was never a dull moment and it was a pleasure to hear your humorous stories. It was obvious from the extremely positive feedback we've received that your generosity of both time and talent was greatly appreciated by those in attendance. Thank you for a very valuable experience."

**Cathy A. Graffanti,  
Executive Director  
Northern Virginia Dental Society**

"During and after taking Dr. Pompa's course on Medical Emergencies, I realized how easy it is to forget these all important and lifesaving skills. He not only presents the latest emergency protocols, but did so portraying emergency scenarios in a multimedia fashion. This along with audience participation, and the use of live demonstrations, totally engaged all the attendees. I now feel confident should a medical crisis occur in my practice or home. Thank you!"

*Frank Peritore, DDS; Brooklyn, NY*

"This is one of the most informative and well-presented lectures that I have ever attended. It is apparent that considerable time and effort went into the presentation. The use of classical film clips to illustrate key concepts was both meaningful and inspired. Thank you for your hard work and dedication."

*Russel Karmel, DDS; Woodhaven, NY*

"After attending Dr. Pompa's course on Medical Emergencies I came back feeling considerably more confident to handle almost anything. Dr. Pompa was able to clearly demonstrate what the medical emergency diagnosis was through the patient's signs and symptoms, and what the treatment should be through the use of movie scenes and popular music. We were also instructed on how to set up our own Emergency Kits using color coding. This should be a required course for all dentists, and their staff, annually."

**Rosanne Puoplo-Carter, DDS  
Glen Head, NY**

"This seminar is a fast paced, interactive, hands-on presentation. The live demonstrations add to the realism of the emergency scenarios. The correlation of the music, video portrayals, and entertaining material that Dr. Pompa gives results in a memorable experience, giving useful information you will never forget. A must see for your staff as well."

*Robert Graziano, DDS*

"This was by far the best CE course I've taken in a long, long time. Your passion and well organized information was only rivaled by your enthusiasm and great knowledge."

*Simon Cherif, DDS, Pedodontist; Queens, NY*

"In my opinion this performance wins "The Academy Award"! This presentation was absolutely fabulous in the detailed and superbly organized material. It captures everyone's attention with an eloquent verbalization of details of the medical emergencies. The visual imagery on the screen is beautifully illustrative from start to finish. This was absolutely a most memorable experience."

*Howard Ruderman, DDS*

**Daniel G. Pompa, DDS**

*Advanced Practice Seminars*

**“Awesome seminar. The pairing of the video and music with the emergencies and information enables you to easily remember the material. This is a unique approach that is entertaining as well. A must see for anyone interested in management of emergencies. Take your staff, they will thank you!”**

*Andrew Jacobson, DDS*

"Excellent! Dr. Pompa took a complex topic and made it simple to understand."

*Dr. Tony Corello  
Westfield, NJ*

"I learned so many 'take home' ideas to put to immediate practice."

*Dr. Jerome Gliksberg  
Succasunna, NJ*

"I would like to thank you for an excellent seminar. It was very informative and filled many gaps in knowledge we all need to address in our offices. You are fulfilling a very important aspect of dental education."

*Menachem Darwish, DDS; Queens, NY*

"Excellent Lecture. I thought I knew more but this lecture got me thinking about ways to change the way I perceive emergencies and how I act."

*Jerry Partrick, DDS; North Virginia Dental Society, VA*

**"One of the best CE courses that I've taken in 40 years!"**

*Dr. Roy Brahen; New Jersey*

"Dr. Pompa is an extremely thorough and dynamic speaker. His multimedia presentation kept me engaged and helped me retain the information presented. The knowledge I gained was above and beyond what I expected."

*Peter Pollina, DDS*

"Excellent. Dr. Pompa takes a potentially dry topic and makes it lively and interesting."

*Dr. Ken Beckman*

"This presentation is special in many ways. The way the information is presented is unique, and its usefulness is without question. Dr. Pompa has a great ability to field a wide array of questions with definitive answers that were easily understandable."

*Barry Lerman, DDS*

"Dr. Pompa is thoroughly informed and up to date in his presentation. It is organized, documented, and most importantly personalized to allow the attendee to easily remember the material. I would highly recommend this seminar to all dentists and their staff."

*Perry Perzov, DDS; Roslyn, NY*

**“Dr. Pompa is an extremely thorough and dynamic speaker. His multimedia presentation kept me engaged and helped me retain the information presented. The knowledge I gained was above and beyond what I expected.”**

*Peter Pollina, DDS; Queens, NY*

"This was the best class that I have attended in years."

*Sam Mitschke, DDS; Houston, TX*

"This was a perfect presentation from start to finish."

*Deborah Zivari, DDS; Forest Hills, NY*

**Daniel G. Pompa, DDS**
